

amendment of April 9, 2001. The pages containing claims 1-12 are marked "AMENDED SHEET" and are attached hereto. Following the insertion of claims 1-12, please amend the claims as follows:

Please amend the claims as follows:

---

ab --3. (Amended) Brake device according to Claim 1, **characterized in that** the limiting element comprises a restrictor valve (42'), which limits the flow of hydraulic oil.

4. (Amended) Brake device according to Claim 2, **characterized in that** a first bypass line (22) is connected over the limiting element (18, 42') so that hydraulic oil is allowed to bypass the limiting element (18, 42') and that a non-return valve (24) is arranged in the first bypass line (22), so that hydraulic oil is prevented from flowing through the first bypass line (22) in the direction towards the brake member (4, 10).

---

Q3 11. (Amended) Method according to Claim 9 **characterized in** that the second brake member (10) is essentially continuously activated until said predetermined pressure is reached.

12.(Amended) Method according to Claim 9,

**characterized in**

A3  
Caf  
that a pressure controlled valve (18) in the brake circuit to the second brake member (10) is opened when said predetermined pressure is reached.--

---

Please add the following claims:

---

A4  
--13.(New) Brake device according to Claim 2, **characterized in that** the limiting element comprises a restrictor valve (42'), which limits the flow of hydraulic oil.--

--14.(New) Brake device according to Claim 13, **characterized in that** a first bypass line (22) is connected over the limiting element (18, 42') so that hydraulic oil is allowed to bypass the limiting element (18, 42') and that a non-return valve (24) is arranged in the first bypass line (22), so that hydraulic oil is prevented from flowing through the first bypass line (22) in the direction towards the brake member (4, 10).--
